Anyone Can Learn How to Pick Locks on the Internet

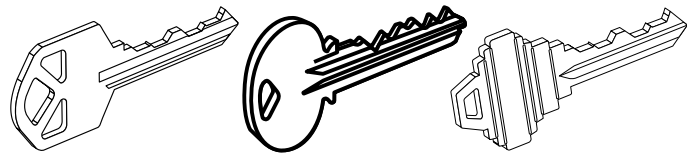

If you perform a simple search on the World Wide Web you will find dozens of mail order vendors who sell picks, picking tools and picking information to the general public.

What this means to the average law abiding citizen is that their exposure to having their locks picked has dramatically increased in the last few years.

How to Protect Your Property From Picking

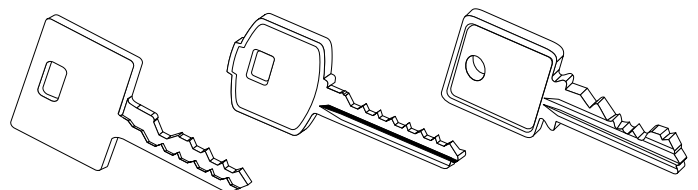

The best way to protect your property from picking is to use locks which are specifically designed to be pick resistant. There are a variety of manufacturers which have developed unique locking systems which are difficult or even impossible to pick. So the next time you are shopping for a lock, make sure you choose a pick resistant lock.
